RSA®Conference2018

San Francisco | April 16 – 20 | Moscone Center

SESSION ID: SBX4-R4

A QUICK START GUIDE FOR CRITICAL INFRASTRUCTURE PROTECTION

Devin Elmore

VP/Program Director, National Cyber Programs
Parsons
@d7vin

Where do you begin?

Take a closer look

What do you have?

Who's keeping an eye on changes?

What if _____ ?   Plan B?   C?

Who's out to get you?   Why?

Keep learning

Get help

Where do you begin?

- Take a closer look, keep an eye on changes
  - **Review your inventory and your change control process**

- Plan for the unthinkable, have options
  - **Think of at least one really bad thing that could happen, and what you would do**

- Know your adversaries
  - **Make a Mean People List, and (legally) find out more about one of them**

- Learn more, maybe get some help
  - **Make a deliberate plan, prioritize its implementation**

THANK YOU!
